Modern Straight Profiles

ABOUT US

Craftsmanship With Creative Control

Elevare Stairs pairs technical expertise with design-led thinking. We design, manufacture, and install every staircase in-house, ensuring complete control from concept to completion. With over 25 years of experience and a Melbourne-based factory, we deliver staircases that are safe, structurally sound, and refined for luxury homes across Australia.

Built In-House, Never Outsourced

Every staircase is produced in our own facility, guaranteeing consistent quality and precision at every stage.

By controlling the entire process, we proudly stand behind our work: Elevare Stairs is the only staircase company in Melbourne offering a 10-year warranty.

STRUCTURAL HANDRAILS

High-quality handrail solutions designed to complement staircases, balconies, and balustrades.

- ✔ Steel Handrails
- ✔ Stainless Steel Handrails
- ✔ Timber Handrails

FRAMELESS & ARCHITECTURAL GLASS

GLASS BALUSTRADES

Designed to maximise light, transparency, and architectural clarity.

U-CHANNEL GLASS BALUSTRADES

Frameless appearance

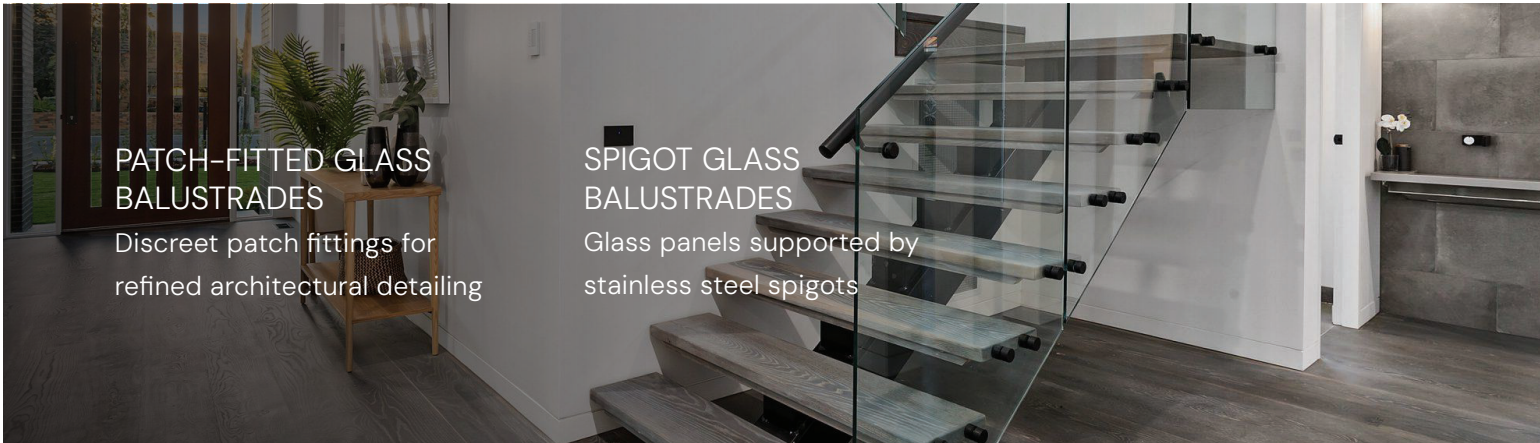

PATCH-FITTED GLASS BALUSTRADES

Discreet patch fittings for refined architectural detailing

SPIGOT GLASS BALUSTRADES

Glass panels supported by stainless steel spigots

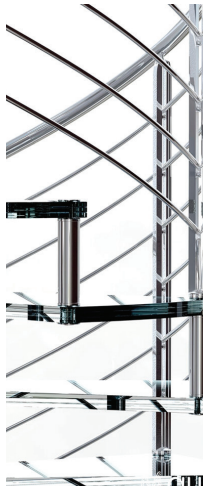

STRUCTURAL HANDRAILS

Contemporary steel
balustrade systems offering
strength, durability, and
design flexibility.

HIGH-PERFORMANCE STAINLESS STEEL

Premium stainless steel
balustrades combining
sleek aesthetics with
corrosion resistance.

NATURAL TIMBER ELEMENTS

Natural timber balustrades
bringing warmth and timeless
character to both classic and
modern interiors.

LUXURY CURVED GEOMETRY

Statement curved staircases
crafted for luxury homes,
delivering elegance, smooth
flow, and architectural impact.

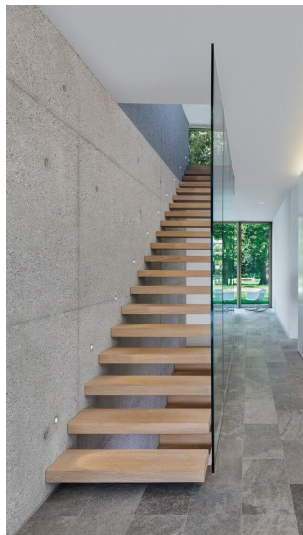

COMPACT SPIRAL CONFIGURATIONS

Space-efficient and visually striking spiral staircases, ideal for residential and feature applications.

MODERN STRAIGHT PROFILES

Clean, modern staircases
focused on simplicity,
functionality, and seamless
architectural integration.

HOW IT WORKS

CONSULTATION & SITE MEASURE

We review your plans, discuss design options, and complete a **detailed site measurement** to ensure structure, safety, and compliance.

APPROVE & BUILD

Once the design and quote are approved, we begin **precision manufacturing**, followed by coordination with your builder for installation.
